

"Bearly" Made It Out

In this text-based adventure game, you'll be playing as a brown bear in a zoo with one simple goal: to escape!  
The only way out is through the main entrance, which is only open during the day, so you're going to need to get through using a disguise.  
The game takes place during the night, which is a perfect time to scavenge the rest of the zoo to look for pieces of clothing that could mask your bearish looks...  
But with guards patrolling the grounds and other animals getting in your way, the task isn't so easy...  
If, however, you manage to find what you need, wait until morning, put on your disguise, and head for the entrance to freedom!

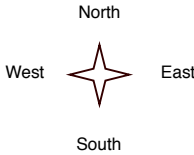

LEGEND

- ★ Item
